Provider Reference Number

Tutor Notes

Give the children a fan and ask them to show you the picture of the 'smiley face' that best describes their response to each of the questions opposite. Then enter the number of responses in the appropriate boxes. Use the session to promote discussion and use the comments boxes below to record significant points - e.g. 'the room was too hot' or 'it was great learning with Dad'. Continue overleaf if necessary. Remember to ask if there was anything they did not like.

1. Have you had fun on this course?

In what way?

2. Did you learn new things?

What new things did you learn?

3. Would you like to do more courses with your parents/carers?

What kind of things?

Any additional comments?
