

Main LSC - All (excludes TASTER sessions)

Notes:

General Notes

Date: These statistics were extracted from our database on 03/03/2010.
Percentages: Percentages (i.e. achievement, retention and attendance) are based on registers received only (i.e. those outcomes that we know about) - not on all enrolments.
Enrolments: Learners who (as far as we know) did at least begin the course - this may change once all registers are received.
Sector Subject Area: There are now 15 main categories + Family Learning has it's own SSA.
Retention: Learners who start and do not withdraw (according to the register) i.e. completion.
Success: Learners who start AND achieve the learning aim (according to the register).
Attendance: Hours actually attended as a percentage of hours available per enrolment if the learner attended each and every session of the course in full (excludes learners who withdrew, excludes courses marked as those that do not fit the standard definition of a "course" ("as-and-when", informal attendance and excludes enrolments where the register has not been received).
Learners & Enrolments: Generally a LEARNER is an individual counted once only, so on the Main Targets report the Learner total is each person counted once only no matter how many enrolments they have done. However, in the other reports, if individuals have responded differently on separate enrolment forms for questions such as ethnicity, they will get counted more than once (as many times as different answers given). Enrolments are straightforward and make no allowances for individuals counted more than once within each Sector Subject Area, Funding Stream etc.

Main Reports

Main Targets: Ethnicity, gender etc. overall for learners and enrolments (a learner is an individual counted once regardless of the number of enrolments).
Prior Attainment: Summary of prior attainment levels.
Summary By Sector Subject Area: Ethnicity, gender etc. by Sector Subject Area.
Summary By Sector Subject Area (COURSES): Course summary by Sector Subject Area.
Summary By Funding Stream: Ethnicity, gender etc. by Funding Stream.
Learner Eval. Form Summary (standard & adapted): Learner Evaluation Form summary (standard and/or adapted versions) if any received.
Learner Eval. Form Summary Highlighted Comments: Comments made by learners that we thought should be noted.
Cancelled Courses: Courses that did not start, these are excluded. Courses that were cancelled after starting are included in stats.

Additional Reports (these may be many pages if they have been included - review before printing)

Course Details:
- All courses and their details listed. Please chase any paperwork for courses not listed. Please chase registers for courses that have finished but no registers are listed.
Super Output Area Summary (all) & Super Output Area Summary (LLD/S4IL excluded):
- One includes and one excludes LLD (S4IL).
- Shows where enrolments came from (learner address postcode at the time of enrolment).
- IMD: Index of Multiple Deprivation for 2007 for LSOAs (as from the Office of National Statistics).
- LSOA: Lower Super Output Area (these replace Wards as geographical areas for statistical information).
- LSOAs are generally smaller than wards and so one ward may contain several LSOAs.
- There are 497 LSOAs that are considered to be in Nottinghamshire.
- More information (including maps etc.) can be found at <http://www.neighbourhood.statistics.gov.uk/dissemination>
- Wards are only given as a guide to the location of the LSOA.
Super Output Area Non-Notts:
- Learners (initials only) making up the "outside Notts", "Nottingham City" and "unknown" entries in the above Super Output Area reports (the actual SOA and postcode).
